> CUSTOMISED PRODUCTS

BASED ON THE CODIS COLLECTIONS OR
FULLY PERSONALISED PRODUCTS

Our catalogue is the basis of the standard product, but we know that each project involves a concept and we look for the perfect solution for each case.

WE CUSTOMISE THE PRODUCTS IN OUR
CATALOGUE OR DESIGN UNIQUE SOLUTIONS
FOR EACH PROJECT.

> COMPUTER GRAPHICS 3D

BECAUSE WE KNOW HOW IMPORTANT IT IS TO
SEE THE RESULT

In addition to developing all the necessary technical information for each project, visualising a result as precise as possible to the project is essential.

3D VISUALS ALLOW US TO TEST THE
PRODUCTS WE CUSTOMISE.

> POINT OF SALE

THE POINT OF SALE IS THE PRESENCE OF OUR
BRAND FOR THE END CUSTOMER

For that reason, we know how important it is to take care of that space. From our design department, we propose solutions for these spaces.

CODIS PRODUCT DISPLAY AREAS THAT ARE AN
EXTENSION OF OUR BRAND EXPERIENCE.

> CONTRACT PROJECTS

CONTRACT PROJECTS NEED SPECIFIC
KNOWLEDGE AND EXPERIENCE

When we undertake a contract project, we identify the primary requirements of each case in terms of materials and design. The requirements for a home renovation differ.

PROVEN EXPERIENCE IN BATHROOM
PROJECTS FOR RESTAURANTS, HOTELS
OR PUBLIC AREAS.

WEBSITE IN ORDER TO COMPLETE THE
APPLICATION FORM AND SEND IT BY MAIL.

1. **CHOOSE COLLECTION AND DESIGN**
Define and describe the collection that
has chosen and, if applicable, the design.

4. **FURNITURE CONFIGURATION**
Define the configuration of the
piece of furniture; whether it has
drawers, doors, visible decorative
elements and their measurements.
DOORS. Indicate on which side
they open.

6. **FURNITURE DRAWING**
A simple sketch of the furniture to be manufac-
tured so that we can all visualise the same thing
and match description and drawing.

7. **COUNTERTOP & BASINS**
You can choose from the many options of wash-
basins and countertops in addition to the possibi-
lities of tops for countertop washbasins.

SPECIFY if the countertop is without tap hole. If
nothing is indicated, will always have a tap hole.

8. **COMPLEMENTS**
Write down all the complements that
needs to configure the solution
for the bathroom: mirrors, towel rails, ...

MIRRORS. Indicate whether they are
backlit and what type.

9. **OTHER**
Make a note of possible improvements to the
collection that are indicated in C1 , such as interior
lighting, Legrabox drawers, etc.

5. **ACCESORIES**
If there is another piece of
furniture or ancillary equipment,
describe it in this section.

2. **CHOOSE THE FINISH**
You can define the type of finish: wood, stra-
tified, lacquer, paulownia, porcelain, krion...
and indicate the reference of the finish,
colour or RAL number.

3. **TYPE OF OPENING**
Choose the opening system for the
furniture: handle or pull handle and
define the model.

A MINI TOILET OR BATHROOM IS MORE FLEXIBLE WHEN IT COMES TO BEING ABLE TO PRESENT MORE INNOVATIVE SOLUTIONS. IF WE ARE TALKING ABOUT A MINI TOILET, THE WASHBASIN IS ONLY FOR WASHING HANDS. SO SPACE CAN BE GAINED WITH A VERY SMALL, SHALLOW DESIGN, EVEN WITH A CUSTOM-MADE CABINET.

SEVERAL SMALL UNIT EXAMPLES

The dimensions of a bathroom do not determine its exquisite and unique appearance. Tailor-made furniture options and the combination with matching accessories are the key.

There are standard configurations in different heights and sizes or you can define the configuration you want by combining doors, drawers and shelves.

C1 TALL CABINETS

TALL CABINETS HAS BECOME A KEY PIECE FOR ORGANISING SPACE AND EVERYTHING YOU WANT TO STORE IN IT. BUT THEY ARE ALSO VERSATILE PIECES IN TERMS OF FUNCTIONALITY AND PROVIDE AESTHETIC VALUES. TODAY MORE THAN EVER, WHEN THE BATHROOM IS INTEGRATED INTO THE SUITE, ITS APPEARANCE AND FINISHES ARE IMPORTANT.

EXAMPLES

The C1 BASICS collection has multiple proposals for auxiliary furniture. Tall cabinets with doors, shelves, in different heights or the SOMA line that combines shelves and mirrors.

C2 CLASSIC

It is characterised by the fact that it rests on a metal base painted with epoxy paint that is resistant to damp environments such as the bathroom. The cabinet rests on the metal structure.

The options at C2 METAL FRAME make it possible to create compact or modular bathroom solutions with the possibility of integrated worktops or washbasins.

DIFFERENT DESIGNS FOR DIFFERENT NEEDS.
SINGLE OR MODULAR BATHROOM SOLUTIONS

There is a choice of different metal frame designs which, in turn, can be combined with fronts in wood, lacquer or laminate and different opening systems, giving each solution a very different appearance.

Metal frames are the best solution for those cases in which it is not possible to hang a bathroom unit on the wall without renouncing a unit with a light appearance and contemporary design.

C2 IRIDIUM

The IRIDIUM metal frame has been designed for the application of an integrated worktop or countertop washbasin combined with a drawer in the lower part.

C2 OSMIUM

Integrated worktops or countertop washbasins can be used in this structure, either with a drawer in the upper part.

C2 GALIUM

Floor-standing metal frame with large capacity upper drawer and single shelf at the bottom.

C2 DRAWER + TOP METAL FRAME

The metal bench is the perfect complement in those cases where you want to do without the volume of the more traditional bathroom furniture without giving up storage space.

A style of bathroom furniture that is perfect for creating exquisite spaces thanks to the details that make it up or the materials with which it can be configured.

FORRO, A DISTINGUISHED
APPEARENCE BATHROOM FURNITURE

Colour, textures and materials are the protagonists of modular collections that offer all kinds of possible combinations and increasingly functional interiors. FORRO offers a high degree of customisation in terms of dimensions, materials and finishes, as well as details in the form of handles and accessories.

BATHROOM
FURNITURE

Furniture with pure forms continues to occupy a privileged place in bathrooms, especially in those where there is not much space to spare. Minimalist does not have to be anodyne, quite the opposite: reduction to the essence requires that the furniture be given greater decorative weight.

Atria is a collection than can be produced in both wooden and lacquer finishes. It is a made-to-measure collection, inspired by the company's DNA, always in search of distinguished solutions that showcase our know-how as manufacturers.

The (until now) omnipresent white in the bathroom gives way to an explosion of colours. From soft pastels and powdery tones to vibrant ranges (a faithful

reflection of those we see on the fashion catwalks), it's time to surround yourself with palettes that connect with emotions.

Atria is a collection than can be produced in both wooden and lacquer finishes. It is a made-to-measure collection, inspired by the company's DNA, always in search of distinguished solutions that showcase our know-how as manufacturers.

When we are looking for the ideal shade for the bathroom, it is important to have two main colours. This will create an interesting contrasting effect	that you can reinforce with the furniture. Think about the lighting, both natural and artificial light, as both will have an impact on the bathroom in the way	the colours you choose for the walls will look. The options are endless and all of them can be successful.

Vega is a collection that appeals to the emotions from different aspects: the materials, the features they offer or what their aesthetics imply. The tendency to give the bathroom a more living room atmosphere translates into pieces of furniture that could be found in any living room.

In perfect combination with the showcases that can be manufactured with mirrored or tinted glass fronts to which the interior LED light can be added.

The showcase becomes a new way of adding storage space and with a high aesthetic value due to the range of finishes on offer.

GLASS UNIT FRONT + GRAPHITE FRAMING

The Vega glass front can be framed with metal profiles in 3 different finishes: black, white or anthracite grey. Then it is time to choose worktop or washbasin and define the perfect combination of shades.

Any space can be used to house different compositions of closed columns with blind doors or display cabinets.

Also with a choice of white, black or anthracite grey profile when the front is translucent, they allow light to be trapped and create a visual play.

CUBE SHELVING SYSTEM

ÁUREA

DESIGNED BY
ARIANE AGIRRE

THE ÁUREA (GOLDEN) COLLECTION IS COMPRISED OF SIX COMBINABLE CUBES IN THREE DIFFERENT SIZES. THE COLLECTION HAS A TOTAL OF EIGHT PRODUCTS: SIX CUBES AND TWO BASES MADE FROM DIFFERENT MATERIALS. THIS COLLECTION IS BASED ON THE GOLDEN RATIO. HENCE ITS NAME.

THIS FASCINATING IRRATIONAL ALGEBRAIC NUMBER WAS DISCOVERED IN ANCIENT TIMES NOT USING AN ARITHMETIC, BUT AS A GEOMETRIC CONSTRUCTION.

THIS RATIO CAN BE FOUND IN GEOMETRIC FIGURES AND IN NATURE: IN THE NERVATION OF THE LEAVES OF SOME TREES, IN THE THICKNESS OF BRANCHES, IN A SNAIL'S SHELL, IN SUNFLOWERS' FLORETS, ETC.

OBJECTS APPLYING THE GOLDEN RATIO HAVE BEEN SAID TO BE AESTHETICALLY PLEASING. SOME EVEN BELIEVE IT HAS A MYSTICAL COMPONENT.

THESE SIMPLE GEOMETRIC CUBES FILL SPACE IN AN ORIGINAL AND SIMPLE WAY. CREATING CUSTOMIZED AND MODERN SHELVES.

THE CUBES ARE MADE OF WOOD AND CAN BE FINISHED WITH LACQUER OR LAMINATE TO FIT PERFECTLY IN ANY ROOM. THE BASES CAN ALSO BE METAL FOR SPACES THAT ARE MORE INDUSTRIAL.

SEDAPRINT TOPS

Tops manufactured in glass with printing in any finish from the Codis range (PLAIN COLOURS, WOOD OR LAMINATED), in addition to the 5 SPECIAL FINISHES that presents in this chapter.

TOPS ON GLASS PRINTED WITH TEXTURES, COLOURS AND MOTIFS

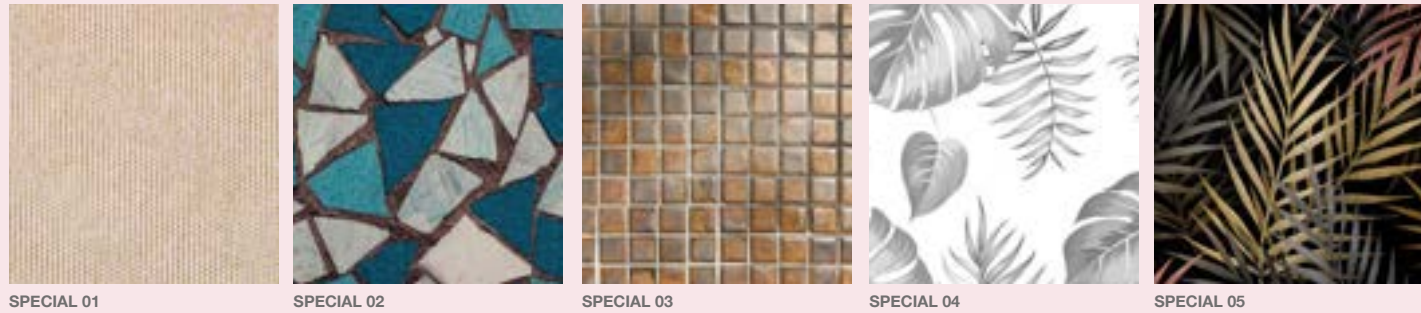

Sedaprint® glass lids, with their high resistance and amazing ease of cleaning, are the ideal solution for your bathroom.

A modern and elegant design, durable and resistant, and with a silky touch that turns the bathroom into a trendy space without losing the functionality of the countertop.

Covers made of tempered glass, which provides maximum hardness (level 6 MOSH scale), impact resistance (EM-12633 certified), and heat resistance, which would otherwise be impossible to achieve in glass.

The technology applied to the printing of the worktop allows the application of the desired motif; be it a plain colour, any of the CODIS finishes or one of the special motifs.

TOWEL RACK LADDER

DESIGNED BY
ARIANE AGIRRE

THESE TOWEL RACKS WERE DESIGNED TO MATCH THEC2 SOBRESE COLLECTION BUT THEIR PRACTICALITY AND SLEEK DESIGN MEAN THEY COMBINE PERFECTLY WITH ANY OTHER COLLECTION.

THE LADDER TOWEL RACK, AS ITS NAME SUGGESTS, IS INSPIRED BY CLASSIC WALL LADDERS. ITS SHAPE HAS BEEN DESIGNED TO ACHIEVE SIMPLE AND ELEGANT LINES LIKE THE C2 COLLECTION, ITS SHAPE IS BASED ON THE CUBE CONCEPT. IT MIXES THE SIMPLICITY AND ELEGANCE OF THIS GEOMETRIC SHAPE WITH THE BLUNTNESS OF HARD CORNERS.

THIS MIXTURE MEANS THE LADDER TOWEL RACK NOT ONLY ADAPTS TO ANY DESIGN BUT THAT IT TURNS INTO THE STAR OF ANY ROOM.

ALTHOUGH THE FIXTURE SYSTEM USED IS VERY SECURE, WE RECOMMEND PLACING THE TOWEL RACK AT A 5° TO 10° ANGLE FROM THE WALL ALTHOUGH IT CAN BE PLACED AT UP TO 23°.

A RUBBER SYSTEM WAS ADDED TO MAKE SURE THE TOWEL RACK CAN WITHSTAND THE WEIGHT OF THE TOWELS WITHOUT SLIPPING OR TIPPING. THERE ARE TWO SUCTION CUPS ON THE BOTTOM OF THE TOWEL RACK WHICH STICK TO ANY SURFACE EXCEPT TEXTILES LIKE RUGS. THESE SMALL PIECES ARE LOCATED ON THE BOTTOM OF THE RACK - YOU CAN HARDLY SEE THEM.

ALPHA COLLECTION

DESIGNED BY
IÑIGO LARRAÑAGA

THE ALPHA TOWEL RACK HAS BEEN DESIGNED TO ADAPT TO THE MAJORITY OF PEOPLE AND THUS BECOME ONE OF THE STAR TOWEL RACKS ON THE MARKET IN TERMS OF CONVENIENCE.

ITS TWO HEIGHTS OF 850MM AND 1000MM MEAN THAT EITHER OF THE TWO TOWELS CAN BE REACHED AND USED BY ALMOST EVERYBODY. THESE CHARACTERISTICS MEAN THAT THIS PRODUCT, AS WELL AS ITS GREAT LOOKS ALSO BRINGS PRACTICALITY AND ADAPTABILITY FOR ITS USERS.

ALPHA IS THE FIRST LETTER OF THE GREEK ALPHABET, WHICH COMES JUST BEFORE BETA. AS THIS IS THE FIRST LETTER OF THE GREEK ALPHABET, IT TENDS TO BE USED TO INDICATE THE START OF SOMETHING, OF A UNIQUE PIECE IN THIS CASE, WHICH IS THE BIRTH OF A COLLECTION OF ACCESSORIES IN LINE WITH THAT UNIQUE PIECE.

FURTHER MORE, IN ANIMAL GROUPS, THE ALPHA ANIMAL IS THAT WHO FULFILS THE ROLE OF LEADER AND WHO THE REST OF THE PACK ARE REQUIRED TO FOLLOW. THE ALPHA TENDS TO HAVE CERTAIN PRIVILEGES THAT THE OTHER ANIMAL GIVE TO HIM, SUCH AS WALKING IN FRONT OF THE GROUP OR EATING FIRST.

ANOTHER ASPECT OF HOW THE PRODUCT IS REFLECTED, GIVEN THAT IT IS THE FLAGSHIP OF THIS COLLECTION, THE LEADER WHO THE OTHER COMPONENTS HAVE TO FOLLOW AS SUCH.. AS THE FINAL TOUCH, THE ALPHA

THE EXQUISITE COMBINATION BETWEEN THIS FINISH AND THE CARRARA WHITE MARBLE BASE, THE MOST SOUGHT AFTER MARBLE SINCE THE MICHELANGELO PERIOD, COME TOGETHER TO OFFER A TRULY ELEGANT COMBINATION.

BLUM DRAWERS

LEGRABOX DRAWER

The Legrabox is synonymous with clear, rectangular shapes, whether as a body storage unit or as a closed container with an insert element.

The major novelty of these drawers is the combination of push opening and soft-close system. This feature makes it the most functional and comfortable drawer on the market today.

Mounted without tools in the blink of an eye. The three-dimensional adjustment of the front panel ensures optimum adjustment of the door set image.
