Mario Ruiz

A graduate of Industrial Design from Barcelona's Elisava University School of Design and Engineering, Mario Ruiz stands out for his discretion, allowing products to speak for themselves through their clean and coherent lines. His designs speak volumes in their simplicity; they live with their users without being conspicuous.

His extensive career experience is remarkable for its multidisciplinary and international projection, with projects that span furniture, lighting and technology design, architecture and creative direction. He has received over 50 awards in Europe and the United States, including the National Design Prize 2016, several Wallpaper Awards, Red Dot, IF, Deltas de Plata, Design Plus, among others. His work has been featured in several solo exhibitions, like the monographic show organized by the Instituto Cervantes of Milan during the Salone del Mobile 2018 or the one hosted by Feria Habitat Valencia 2018.

Terms of sale:

- The present price list is effective as of February 17, 2025.
- This is a public price list tax free, packing included.
- The indicated prices are susceptible to be modified based on the costs of raw materials, in case the company is forced it. Please consult the price list on our website before making a budget, to ensure that references and prices are correct.

Ordering procedure:

- All orders must be done by a written form, either email (export@st-systemtronic.com) or fax (+34 961854482), indicating:
 - A - product name and reference
 - B - model
 - C - finish / colour
 - D - number of items
- Orders modifications or cancellations will not be accepted 48 hours after the order confirmation.
- Samples orders will be charged as regular ones.

Minimum order:

- Depending agreed on sales conditions.

Special orders:

- For special orders or modifications in any of our products (finishes, dimensions, etc.), consult SYSTEMTRONIC for a previous quotation and delivery time.
- All special orders will be payed in advance by a bank tranfer (€), when confirming it. No additional discounts will be applied.

Payment conditions: swift bank transfer:

- SYSTEMTRONIC doesn't accept sharing bank expenses; we expect to receive the total amount of invoices in the bank transfer.
- First orders will be paid by a swift bank transfer (€) in advance of the total of the amount of the invoice.
- Payment form for following orders will be negotiated between SYSTEMTRONIC and its clients.
- Products remain of SYSTEMTRONIC's property until the invoice is fully paid.

Production period:

- Between 4 and 6 weeks after order confirmation.

Delivery conditions:

- INCOTERMS 2010: EX-WORKS (EXW).

Transport:

- Damages needs to be reported (including the pictures) by fax or email within the following 24 hours once the order is received.
- Deliveries to private addresses will carry a 100 % increasement in the transport cost.

Packing:

- In those orders that need to be shipped in special wood crates, the cost of the special packing will be charged in the invoice. Must be confirmed with the order.

Warning:

- SYSTEMTRONIC reserves the right to make any technical, dimensional or esthetic modification in the manufactured products without prior warning.
- Any type of claim related to the manufactured products must be notified within the term of the following 8 days to the delivery of the merchandise, and under no concept we will accept claims past this time.

Guarantee:

- SYSTEMTRONIC guarantees the quality of its products throughout the manufacturing process and the products components, expecting a responsible use of each item based on its specific characteristics.
- Defects caused by a bad use, hits, cleaning products or extreme weather conditions are not covered.
- The guarantee is valid for 36 months from the date of SYSTEMTRONIC's invoice.

Index

800 FREESTANDING SHELVES

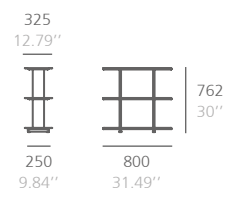

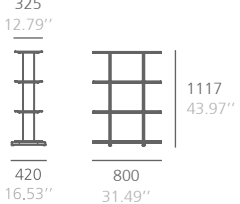

800 freestanding shelves

Modular freestanding shelves, 800 mm wide. The shelves, with rounded corners, have trims on both ends that conceal the interior of the profile. Versions up to three shelves high have 250 mm bases. To guarantee stability, from four shelves it has 420 mm bases that can be hidden with a trim. Optionally, it can integrate 800 mm sliding panels, in front or rear position. Combinable with the rest of the Wing shelvings. The maximum recommended height is seven shelves.

It is recommended to anchor freestanding shelves with 4 or more shelves to the ground for safety reasons. **Floor anchoring** element available in the Accessories section.

For compositions of continuous modules, it is essential to take into account the union **joint** that must be placed between shelves. See the Accessories section.

1600 WALL SHELVES

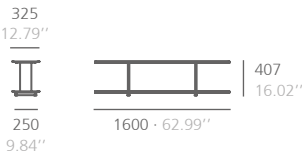

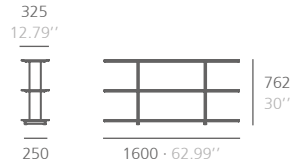

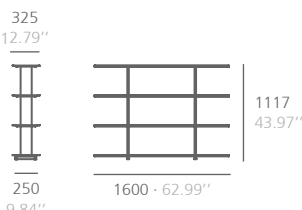

1600 wall shelves

Modular wall shelves, 1600 mm wide. The shelves, with rounded corners, have trims on both ends that conceal the interior of the profile. It has wall hooks designed to be flexible in case of unevenness. The bases measure 250 mm. It is possible to integrate 400 mm and 800 mm sliding panels, in front or rear position. Combinable with the rest of the Wing shelvings. The maximum recommended height is seven shelves.

Wall hooks included.

For compositions of continuous modules, it is essential to take into account the union **joint** that must be placed between shelves. See the Accessories section.

1600 CORNER SHELVES

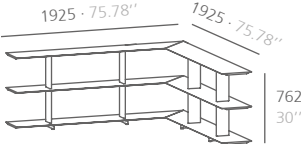

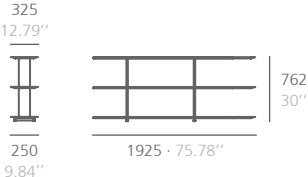

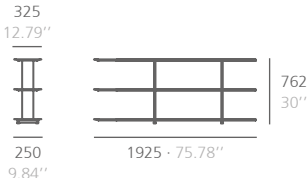

1600 corner shelves

1600 mm wide freestanding or wall corner shelf. Each level comprises right-side and left-side shelves, joined by two inner flat bars that fix them in place. The shelves, with rounded corners, have trims on both ends that conceal the interior of the profile. Its corner arrangement and its strong joints give this model great stability, which allows it to keep the measurement of its bases at 250 mm, without the need to use wall or floor anchorings. It is possible to integrate sliding panels of 725 mm and 1125 mm, in front or rear position. Combinable with the rest of the Wing shelvings. The maximum recommended height is seven shelves.

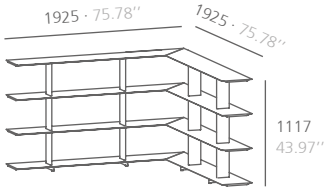

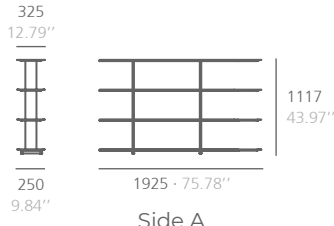

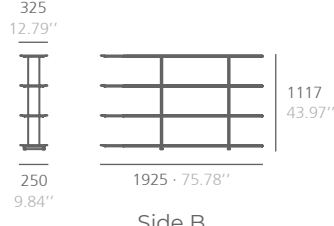

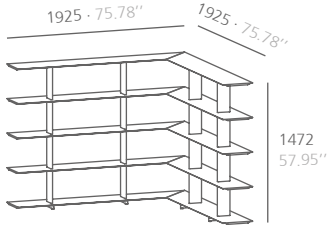

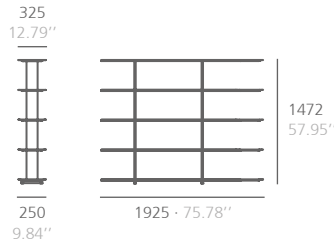

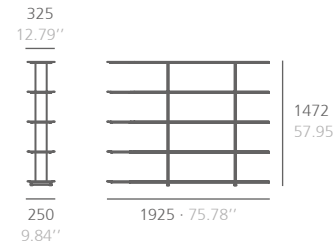

For compositions of continuous modules, it is essential to take into account the union **joint** that must be placed between shelves. See the Accessories section.

DESK

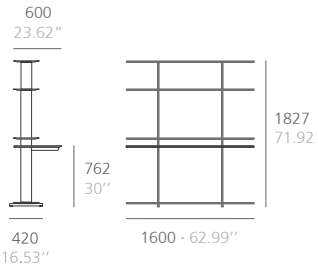

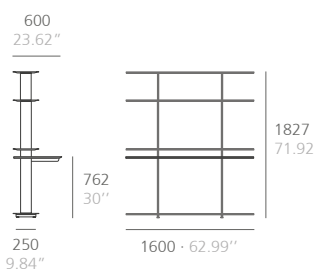

Desk

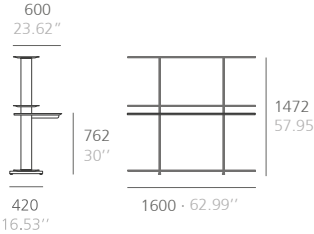

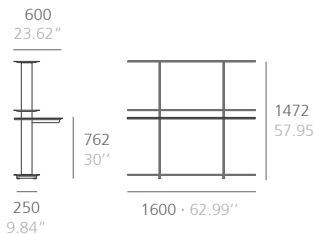

Desk 1600 mm long, with shelves that can be used to store books, office materials, decorative items, etc. With this piece of furniture, the collection reinforces its possible use as a key piece for remote working from home. Designed for individual use or to form compositions with the Wing shelves. The board can be requested in a natural oak finish, or in a white or black industrialized laminate finish. Available in two versions: wall-mounted or freestanding.

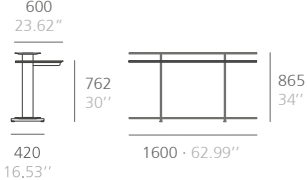

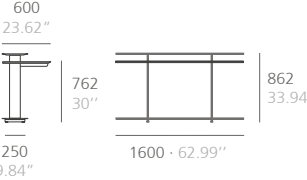

In wall models, **wall hooks** included. In freestanding models, **floor anchoring** included.

For compositions of continuous modules, it is essential to take into account the union **joint** that must be placed between shelves. See the Accessories section.

WARDROBE

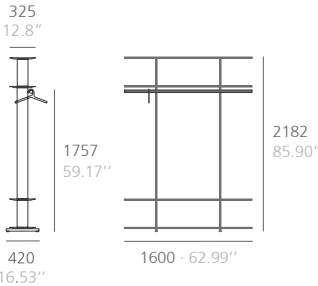

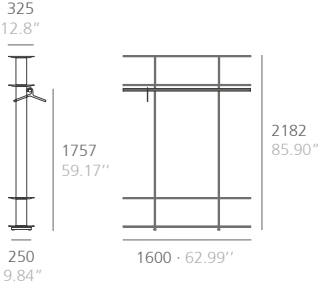

Wardrobe

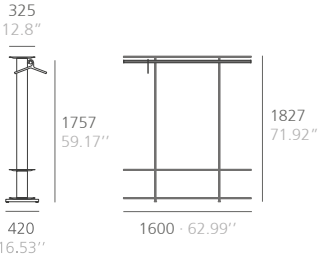

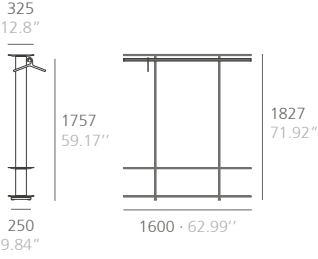

Open wardrobe that simultaneously makes it possible to organise clothes, shoes, bags and other accessories thanks to the way it unites the hanging rod with shelves. Designed for individual use or combined with other elements of the same unit, as well as forming compositions with the Wing shelves. The approximate capacity of the hanging rod is 20 to 25 winter jackets. Available in two versions: wall-mounted or freestanding.

In wall models, **wall hooks** included.

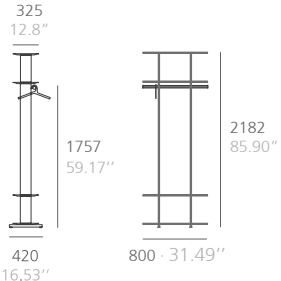

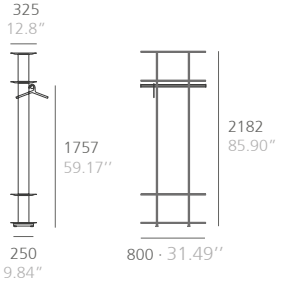

It is recommended to anchor the freestanding models to the ground for safety reasons. **Floor anchoring** element available in the Accessories section.

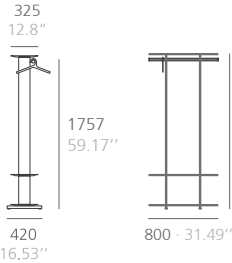

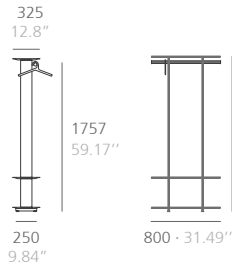

For compositions of continuous modules, it is essential to take into account the union **joint** that must be placed between shelves. See the Accessories section.

	800 hanging rod	WGCOL800NI	Black nickel-plated	15

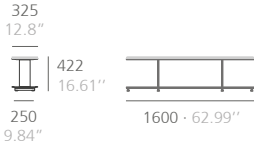

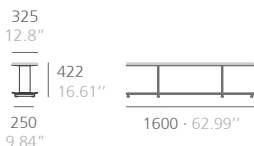

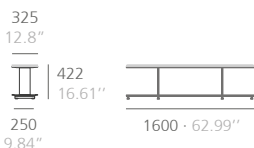

BENCH

Bench

1600 mm long bench with upholstery available in three 100 % recycled finishes. Ideal to be placed at the foot of a bed. This piece of furniture is a practical two-in-one: being upholstered, it becomes a comfortable seat and, thanks to its lower shelf, it offers extra space to store plaids, shoes, cushions, books or other objects.

For compositions of continuous modules, the union **joint** is optionally offered. See the Accessories section.

Model	Description	Reference	Finish	PVP* euros/unit

TV STAND

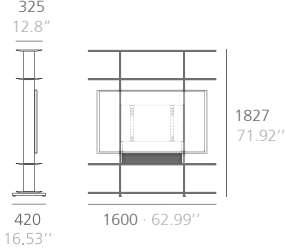

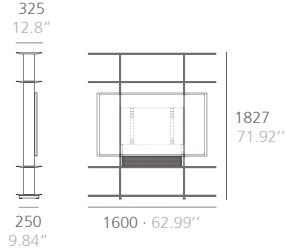

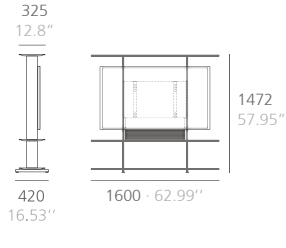

TV stand

1600 mm wide TV stand designed for individual use or to form compositions with the Wing shelves. Includes a rear panel that hides the connections. Supports screens up to 70 inches, with a maximum width of 1600 mm. VESA 100, 200, 300, 400 and 600 mounting interface standard. Both in its home and office versions, this product can be wall-mounted or freestanding.

In wall models, **wall hooks** included.

It is recommended to anchor the freestanding models to the ground for safety reasons. **Floor anchoring** element available in the Accessories section.

For compositions of continuous modules, it is essential to take into account the union **joint** that must be placed between shelves. See the Accessories section.

PROGRESSION ITEMS

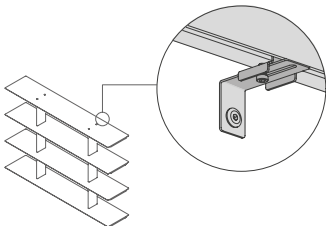

The Wing shelvings are conceived as living furniture that can be transformed over time: growth in height, dividing a model into two or more, and even converting a freestanding into a wall and vice versa. This is possible thanks to its modular design and the simplification of its parts, many of them interchangeable.

The following tables list the progression items required to perform this type of modification.

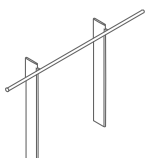

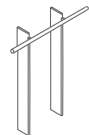

Accessory	Description	Reference	Finish	PVP* euros/unit
	A 800 mm shelf unit	WGS800BL	White RAL 9003	383

SUSTAINABILITY

The flexible and extremely adaptable design of the Wing collection allows it to be reused, resulting in a longer lifespan. Wing shelvings are made with 100 % recyclable materials. At least 25 % of the aluminum used is recycled. The paints used do not contain solvents, do not consume water and do not generate emissions or waste. The incorporated fabrics are made entirely of recycled material and its manufacturing process does not generate any rubbish. The result is a lower environmental impact.
