PRICE LIST	p. 16

GENERAL CONDITIONS

All commercial relationship between AKABA S.A. and their clients will be held under the following general sales terms and conditions accepted by the buyer simply by sending the order:

Public prices excluding VAT ex factory. This price list comes to effective on May 1st 2025, cancelling the previous one and until notification of a new price list.

- FCA factory conditions, transport is not included.
- Production lead time: 4-6 weeks for chairs and 6-8 weeks for desk systems and tables (excluding holidays and factory closing days).
- Disposal and recycling of packaging is the responsibility and cost of the buyer.

ACCEPTANCE AND ORDER CONFIRMATION

The commitment of sales and delivery will not be firm until acceptance by means of an order confirmation sent on official AKABA document. If AKABA S.A. does not receive the conformity within a period of 3 working days, the confirmation will be the valid document. Any change after this period could imply a supplement that will be charged to the customer.

AKABA, S.A. retains the right to introduce modifications or improvements for technical for technical or aesthetic reasons.

ORDER MODIFICATION OR CANCELLATIONS

Order cancelations require previous approval where non-recuperable expenses by AKABA, S.A. will be evaluated and charged.

PAYMENT TERMS

Payment will be fulfilled as per the terms included on the order confirmation. Orders are invoiced on the dispatch date that appears on the order confirmation. Factory pick-up orders are also billed on the date indicated in the confirmation.

GUARANTEE

AKABA S.A. guarantees its products during 5 years against any manufacturing defect excluding under this concept any damage occurring due to incorrect use, negligence, natural wear of the product and of the material sent by the client.

TRANSPORT CLAIMS

Any claim about flaws or damages caused during transport must be communicated within 48 hours of delivery and leaving a "NON CONFORMITY" message on the carrier's delivery note. Material control is recommended upon receipt of the merchandise.

Outside of this period, AKABA S.A. will not be responsible for any transportation claim. AKABA S.A. will not accept damage claims caused by transport for goods that are no longer in the delivery warehouse designated in the order confirmation.

JURISDICTION

For any litigious or legal cases that may arise, the parties will be subject to the jurisdiction of the Courts of San Sebastián-Donostia, Spain.

CERTIFICATES AND AWARD

- ISO 9001
- ISO 14001
- ISO 14006

Colours out from standard fabric samples or soft leather sample cards, will have a 45 € net price increase per order.

COF/COL

AKABA S.A. may require a previous sample in order to approve non standard fabric or Soft leather. AKABA S.A. cannot guarantee optimal upholstery with these fabrics or soft leathers. AKABA S.A. does not guarantee optimal upholstery with fabrics/leathers outside the collection and reserves the right to reject fabrics / leathers if they are not appropriate.

All materials supplied by the client will be sent postage paid. Any additional cost caused by the customer's material will be charged to the invoice.

AKABA S.A. is not responsible to any client or third party for claims or damages in relation to products upholstered with COF/COL materials.

The footage calculated in the rate is for 140cm wide fabrics. For projects, consult the factory for possible uses and improvements of footage.

OFF-COLOUR

Certain clothing and accessory dyes (such as those used on denim jeans) may migrate to lighter colors. This phenomenon is increased by humidity and temperature and is irreversible. AKABA S.A. will not assume responsibility for dye transfer caused by external contaminants and possible permanent staining caused by this phenomenon.

WOOD TABLETOPS

AKABA S.A. will not be responsible for the total uniformity and similarity in the tables that have more than one tabletop. The nature of this finish, its diversity of veins, tones and shades from one sheet to another, mean that exact uniformity cannot be guaranteed.

------	-------

Aia

Isaac Piñeiro

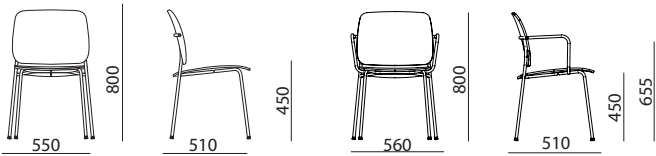

With smooth and clean curves, Aia is inspired by the Japanese sense of simplicity and harmony. Large surfaces of the finest wood and a line created by the tubular steel structure makes it visually very light.

Aia is a chair that fits anywhere in any space. Its pure lines and natural materials create a warm feeling. It is versatile and works in offices, hotels, restaurants and residential environments.

Aia 4 Legs

Isaac Piñeiro

 610x730x1080mm

 4 units (3 units upholstered)

Chair without or with arms, steel tube of Ø16mm powder coated.

Seat and back in oak plywood natural varnished, option M-675 and M-676 with price increase. Seat upholstered or fully upholstered.

Polypropylene glides or felt glides with price increase.

PRICE INCREASE FOR FELT (per chair)

ACT1	9
-------------	---

Branka

Pensi Design Studio

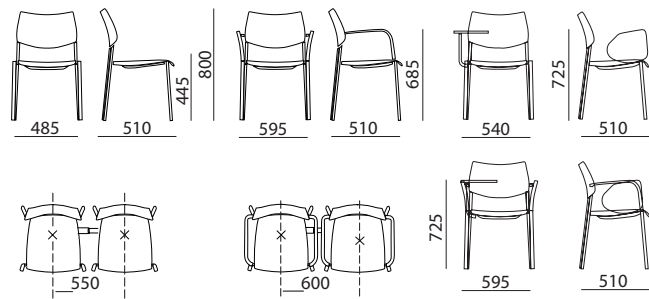

A versatile chair, easy and strong, made to withstand everyday contract wear and use. Meet Branka, meaning “bow” in Basque. Ships have always set sail from our territory with their bow pointing towards the immensity of the seas, strong and inexorable, unstoppable by any obstacles. This tribute to our marine past and present, to the bravery and hardiness of our “arrantzailes” (fishermen and women), is represented in Branka.

A chair capable of meeting any challenges thrown at it: with tremendously strong joints, and with a resistance and durability that can withstand (almost) anything. And yet also easy to assemble, easy to manufacture and easy to upholster. A chair with our complete DNA which, immediately it was created, comfortably entered the Akaba catalogue, with elegance and reliability.

Branka Polypropylene

Pensi Design Studio

 610x730x1080mm  4 units  10 units

Stackable chair with or without arms in Polyamide or painted aluminium.

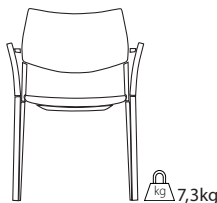

Structure in steel powder coated, with option for chromed/polish with price increase. Seat and back in polypropylene non-upholstered or upholstered.

Gorka has been and is the essence of Akaba: our best seller. Designed by Jorge Pensi, this is a chair capable of creating an atmosphere in all kinds of interior decoration projects. A chair of high design, ergonomic and customizable. Perfect for contract, office and home use, Gorka is an ideal model for projects requiring an ergonomic chair of high design. In its structure, gentle lines subtly combine, framed by the aluminium of its sides and legs. Classic elegance, timeless design.

Gorka comes in 3 versions adapted to the needs of each space: Gorka, Gorka XL and Gorka Lounge.

Gorka Polyamide

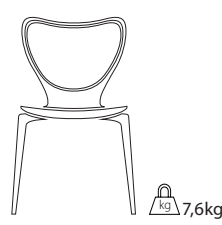

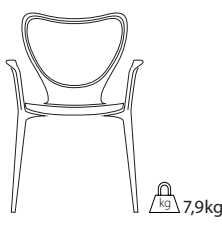

Pensi Design Studio

Gorka 30th

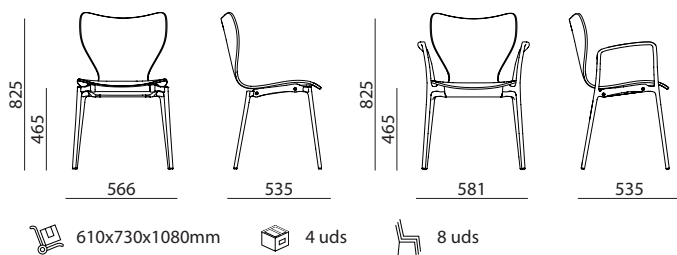

Pensi Design Studio

In 1994 we launched Gorka. It was born as a chair and became a revolution. 30 years later it is back with the same spirit and an evolution of its shape. Its characteristic polyamide shell is now made of wood, offering an object of high design and maximum ergonomics.

Gorka 30th

Pensi Design Studio

Stackable chair with or without arms. Powder-coated injected aluminum structure. Polished with price increase.

One-piece plywood oak or walnut shell. Optional frontal upholstery in fabric or leather.

Felt glides with price increase.

Guri is the result of an effort to achieve softness, both visually and ergonomically. A quest that has been taken to the limit in the design, depicted in a single stroke. Featuring an enveloping shell and a silhouette that houses sinuous shapes on the inside, as well as the relatively vertical lines of its wide backrest, refer to an all-time classic: the Pollock chair.

Guri is available in a wide variety of structures: wood, aluminum, stackable, swivel, with casters... And the shell is set forth in a range of warm and tertiary colors, fleeing from the stridency to stand within the world of the understated and the suggestive. As subtle as a gesture, a glance, or a caress, the design of Guri makes for a discreet and cozy chair.

Guri 4 Legs

Ander Lizaso

Stackable chair with or without arms, with powder coated steel tubular base of Ø18mm.

Seat and backrest in one-piece polypropylene + fiberglass.
Non upholstered, upholstered seat only or fully upholstered.

Hanna

Francesc Rifé

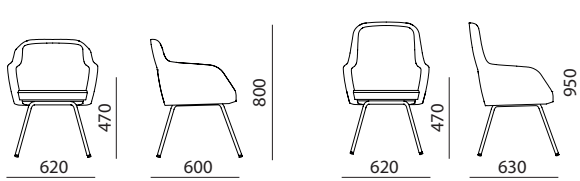

A feminine piece of pure and elegant lines which invites you to nestle down cosily yet which is also cordially open to others. Welcoming, comfortable and sensual; Hanna is perfect for decorating work spaces, places to receive the visits of collaborators and customers... or spaces to be lived in.

Whether inside our homes or out (a hotel lounge or dining room), this chair loves to discover new places and will always welcome you with its arms wide open. Hanna adapts to any atmosphere and context thanks to its different variations.

Its timeless design combines character and harmony with different materials, offering up to five different options of leg type. Aluminium, steel or wood create a versatile ensemble visible in the two available heights that can turn Hanna into an elegant armchair.

Hanna 4 Legs

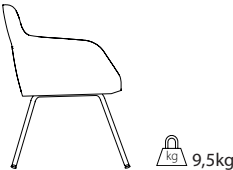

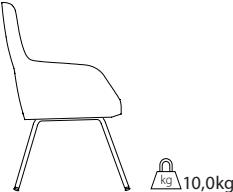

Francesc Rifé

Low back  680x560x840mm  1 unit
High back  680x560x940mm  1 unit

Armchair, made of powder coated steel tube frame of Ø22mm, 4 legs with glides. Option glides with felt with price increase.

Shell in one piece of beech veneer upholstered in fabric or leather. Available in two heights.

DRAWING	SPECIFICATION	REF.	€uros
	PRICE INCREASE FOR FELT (per chair)	ACT1	9

Kabi means “nest” in our Basque language. Just sit on this chair and you’ll see why it gets its name. It’s that place that cuddles you, protects you and makes you feel good. It doesn’t take much to make you feel this comfortable. That’s the key to the small pleasures. And that’s the key to Kabi: maximum sensations with minimum resources.

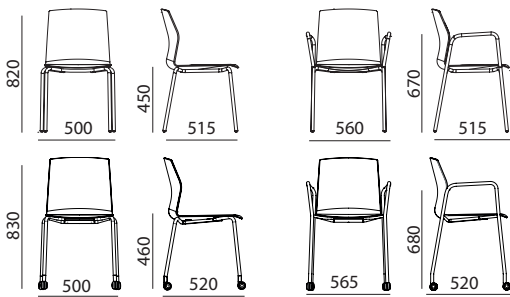

Kabi is a complete range of chairs designed around a Polypropylene shell. A subtly flexible back allows each user to sit comfortably, to create their nest, to feel at home. Total well-being with a timeless image fully customizable with fabric or leather upholstery. The colours customize the seat, the structure and the legs.

Kabi is highly versatile and functions well for widely differing spaces and uses. You may find your nest in a restaurant or bar, perhaps as the basic chair with no armrests. It can also come with a swivelling aluminium base or with multilaminate wooden legs, ideal for offices or hotels. The bases with or without castors and the two heights multiply the possibilities of their use.

Although Kabi has discreet elegance as its essence, it can also stand out for its colour. We have a Kabi for every space and every person. We can help you to create your own Kabi; we adapt to your needs.

Kabi Armchair

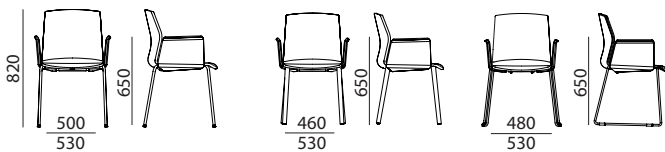

Pensi Design Studio

Kabi Armchair is an armchair that is born from its more technical aspect due to its resistance to become a cozy armchair with upholstered arms without losing its essence. Like the Kabi collection, it comes in all its variants, with office base, sled, pyramid, wood and 4 legs with a variety of upholstery options providing a multitude of combinations.

Kabi Kids

Pensi Design Studio

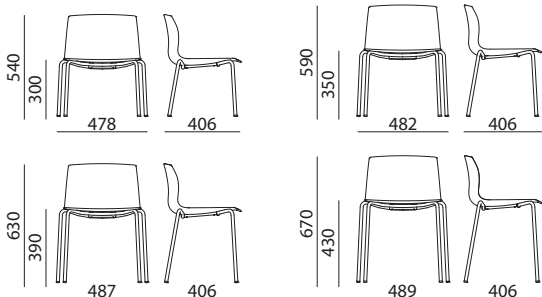

Kabi means “nest” in our Basque language. Just sit on this chair and you’ll see why it gets its name. It’s that place that cuddles you, protects you and makes you feel good. It doesn’t take much to make you feel this comfortable. That’s the key to the small pleasures. And that’s the key to Kabi: maximum sensations with minimum resources.

The new Kabi Kids collection serves to expand the Kabi programme. With more compact seating which nonetheless maintains the characteristic comfortable, single-body design. The family presents a 4 legs structure, with four different heights and all of them stackable.

Kabi Kids

Pensi Design Studio

Stackable children's chair available in 4 heights. Frame made of steel of Ø16mm powder coated.

Seat and back in one piece of polypropylene 80% + 20% F.G.

Kabi Stool

Pensi Design Studio

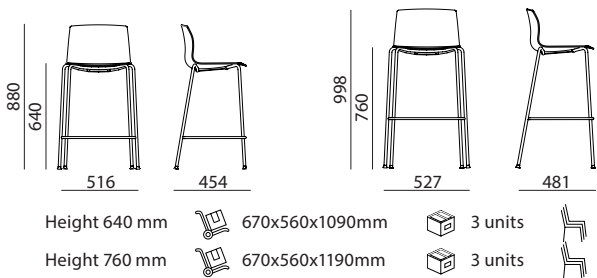

The new Kabi Stool collection serves to expand the Kabi programme. With more compact seating which nonetheless maintains the characteristic comfortable, single-body design, offering different base options for a range of spaces. It is also available in two heights: a higher barstool and a medium-height stool for counters, in both private and public settings.

The product family features four different bases, including a 4-legged stacking option. All these variants combine with the Kabi single-body structure, in polypropylene or with fabric upholstery, and an endless array of finishes and colours. All of which goes to create an extensive and consistent collection, to resolve the different needs of the Hospitality and Contract market.

Klasik

Gabriel Teixidó

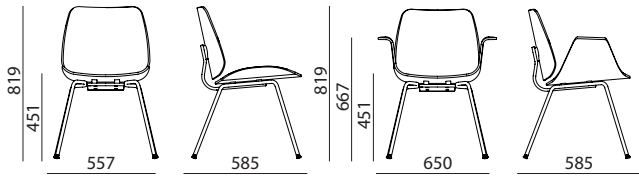

Klasik is a wrap-around chair design, born as a new contemporary icon, where craftsmanship and wood meet technology to offer a wide range of finishes and solutions.

Its warmth, elegance and comfort reflect a timeless and classic personality, ideal for any room and circumstance. Thanks to its material and versatility, this chair can be decked out in casual style or given a more formal appearance, always bringing a unique touch to every atmosphere within a same space.

A moulded wooden body lends the chair its beauty and ergonomics, strongly marking its personality and character. It also offers the option of an upholstered seat pad for greater comfort. The possibility of combining different bases make Klasik a complete and flexible family, creating a perfect collection for hospitality and corporate use, and for spaces in the home.

Lur is a family of chairs characterized by its enveloping design of round and organic outlines. The polypropylene one-shell seat, as comfortable as versatile, is available in a new colour range.

The programme offers infinite configuration options thanks to the variety of fabrics and the upholstery alternatives (frontal, partial or complete upholstery), as well as a wide selection of bases, which makes Lur an especially polyvalent collection.

A transversal and functional design, for all kinds of environments and markets.

Lur 4 Legs

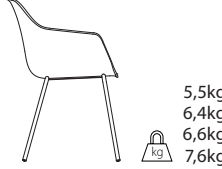

Pensi Design Studio

Oskol

Ander Lizaso

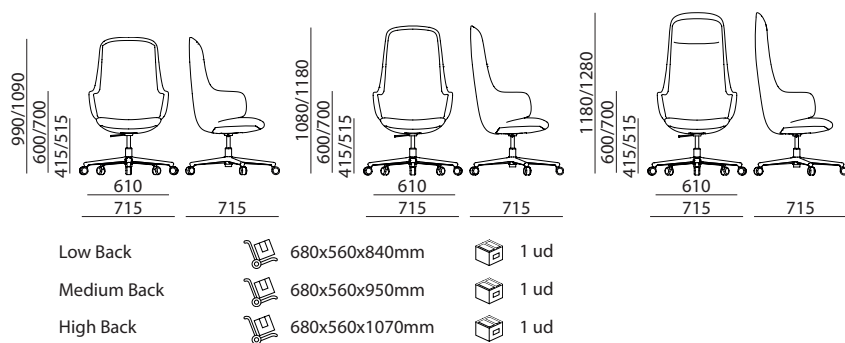

Oskol is a meeting and office chair that combines smooth, organic lines to provide comfort and style within any professional environment. Oskol wraps you in an ergonomic design that prioritizes well-being and adaptability to different types of users.

Available in three backrest heights, each version reflects a unique character: from the most casual to the most executive.

Oskol Office

Ander Lizaso

Chair with armrests, fully upholstered. Black five-star polyamide base with casters, or powder coated or polished aluminum base with casters with price increase. Height adjustment with a gas lift and a tilting mechanism.

Shell available in three heights.

Black piston for polyamide and powder coated bases. Chromed piston for polished bases.

Option soft or hard castors.

Ostoa

Ander Lizaso

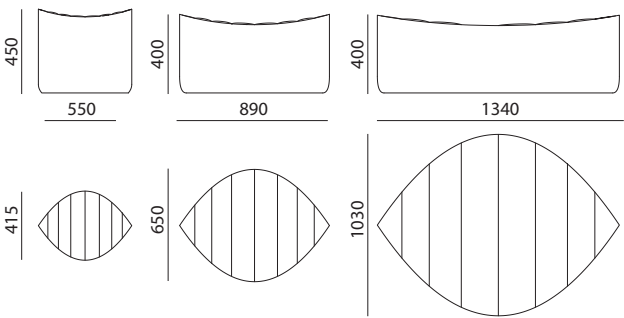

Ostoa is a collection inspired by the natural and light beauty of a leaf. With charming and soft forms, the programme has been designed for soft-seating zones.

Thanks to its different sizes, materials and upholstery options, Ostoa offers the possibility of creating personalized surroundings. As it happens with the falling leaves in autumn, it allows designing harmonious combinations in an intuitive and unpremeditated way.

In our language, Topa means gathering with or meeting other people in a same place. That's the idea behind this collection of casual design and pure lines. The Topa collection is based on individual, easy-to-assemble pieces offering myriad layout possibilities.

A selection of armchairs, tables and pouffes serving to create different atmospheres for working or relaxing: offices, waiting areas, open spaces, chill-out or coworking spaces, spaces to meet, eat & take a break... The variety of materials and fabrics applicable to the whole collection helps to create connected atmospheres.

Xoko & Gune

Iratzoki Lizaso

A collection of stools for sharing thoughts and ideas in collaborative environments. With generous seat dimensions, Xoko is at the same time both symmetrical and asymmetrical. Its unique shape envelops the user. Its design makes it possible to sit in different directions, yet retain comfort.

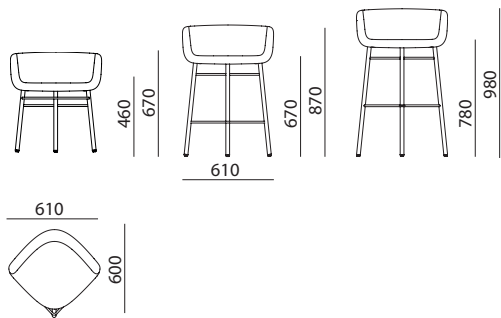

The Xoko stools program livens up spaces and helps to foster conversations and the sharing of ideas. In open areas, it offers different configurations where you can just sit and connect with the physical space.

As for the Gune tables, its rounded corners that define a kind contour. The cross-shaped base and rounded vertices enhance the character of the Gune table program. The possibility of a double countertops brings another dimension to the table and functions as an auxiliary surface, thus allowing more space.

Gune is a program of tables with multiple configuration possibilities to form casual spaces, both work and leisure. Gune tables are available in 5 heights to combine with stools and chairs in both working and lounge spaces. There is a simple column option as well as an elongated version with two columns.

Measure: 1,2ml/16 feet. For projects, please contact the factory.

Gune

Iratzoki Lizaso

Table program for collaborative spaces, made of steel base powder coated option.

Tabletops in melamine, wood, compact - HPL or plywood laminated. Available in 5 heights. With leveling glides.

Type of edges per tabletop:

Melamine and wood:
Straight edges

Compact - HPL:
Straight edges, black body

Plywood laminated:
Rounded edges

	HANGER 2 per column	AC058	20

Aski

This collection of Askı tables has a timeless appeal that makes it suitable for use in a wide range of domestic, public, educational or corporate settings thanks to its simplicity, durable construction and practical design.

The tables come in a range of sizes with a center column with three different height options, as well as two additional support bases that can be either round or square.

TABLETOPS

Top 19mm melamine, 12mm compact - HPL, 20mm fenix, 20mm bevelled plywood laminated or 19mm wood veneer.

STRUCTURES

Base square or round in S-275 grade steel in several dimensions depending on the top size. Bevelled edges and smoothened surfaces to ensure the optimal adhesion to the paint. Variable widths of sheet from 5mm to 16mm. Powder coated finish. Base prepared for electrification exit. Robust polyamide screwed glides. Good slip, high durability and floor protection.

Column cylindric steel tube from Ø60mm to Ø100mm, 2mm thick. S-275 grade available in several heights. High precision laser tube cutting. Powder coated finish.

ELECTRIFICATION SYSTEM

Two types of electrifications available: Electrification with 2USB or electrification with 1 electrical outlet + 1 USB A and C.

TYPES OF EDGES PER TABLETOP

Melamine, wood and black Fenix:
Straight edges

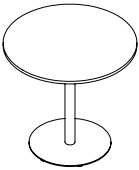

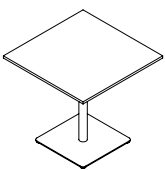

Compact - HPL:
Straight edges, black body

Plywood laminated:
Bevelled edges

EXAMPLE OF AN INTEGRATED ELECTRIFICATION SYSTEM

Bat Executive

Francesc Rifé

A desk to work at and meet around. There's always space for more knowledge. Bat is united around an objective. Bat Executive is a space open to weighing up opinions, to hearing new ideas and leading new projects. The key lies in the union. Everything is easier if you know others are behind you.

Special for its simplicity, Bat has been created so that ideas can flow, so that people can share their knowledge and generate synergies. The difference lies in the details: walnut wood and leather finish; steel sled legs in painted steel...

Bat Executive

Francesc Rifé

TABLETOPS

Tabletop made of a double layer of 60mm (2 3/8") thick MDF board creating a 3 mm (1/16") edge with integrated top access veneered in natural wood with acrylic matt UV protection varnish available in several finishes.

Table surface upholstered in Eco leather in several finishes.

Powder coated steel frame structure integrated underneath the desk surface.

WOOD TABLETOPS

AKABA S.A. will not be responsible for the total uniformity and similarity in the tables that have more than one tabletop. The nature of this finish, its diversity of veins, tones and shades from one sheet to another, mean that exact uniformity cannot be guaranteed.

U-SHAPED LEG/COLUMN LEG

U-shaped leg in 2 mm (1/16") thick steel measuring 80x20 mm (3 1/8" x 3/4"), powder coated, with leveling glides.

BOOKCASE CABINET AND BOOKCASE PEDESTAL

Table supported bookcase cabinet made of 20 mm (3/4") thick MDF board veneered in natural wood with acrylic matte UV protection varnish available in several finishes. The bookcase cabinet is elevated. External part with bookcases and lacquered book ends and dividers. Internal part with a door to accommodate a briefcase or bin, 3 drawers provided with pencil case in wood, lock and metal drawer slides with automatic drawer closing system. Sliding door.

Pedestal made of a 20 mm (3/4") thick MDF board veneered in natural wood with acrylic matte UV protection varnish available in several finishes. The bookcase pedestal is elevated. External part with bookcases and lacquered bookends and dividers. Internal part with 3 drawers provided with wood pencil case, lock and drawer slides with automatic drawer closing system. Provided with a door to accommodate a briefcase or bin.

ELECTRIFICATION SYSTEM

Integrated cable management system in all technical furniture. The access to the electrical outlets is on the inside of the furniture and cable risers and cable trays are provided.

MEETING AND BOARD ROOM TABLES

Tabletop made of a double layer of 60 mm (2 3/8") thick MDF board creating a 3 mm (1/16") edge with integrated top access veneered in natural wood with acrylic matt UV protection varnish available in several finishes.

U-shaped leg in 2 mm (1/16") thick steel measuring 80x20 mm (3 1/8" x 3/4"), powder coated, with leveling glides. Powder coated steel frame structure integrated underneath the desk surface.

The cable management system is designed through a central column in textured, lacquered MDF with access for cable rising with cable tray for electrical units. Top access from tabletops.

BOOK CASE CABINETS

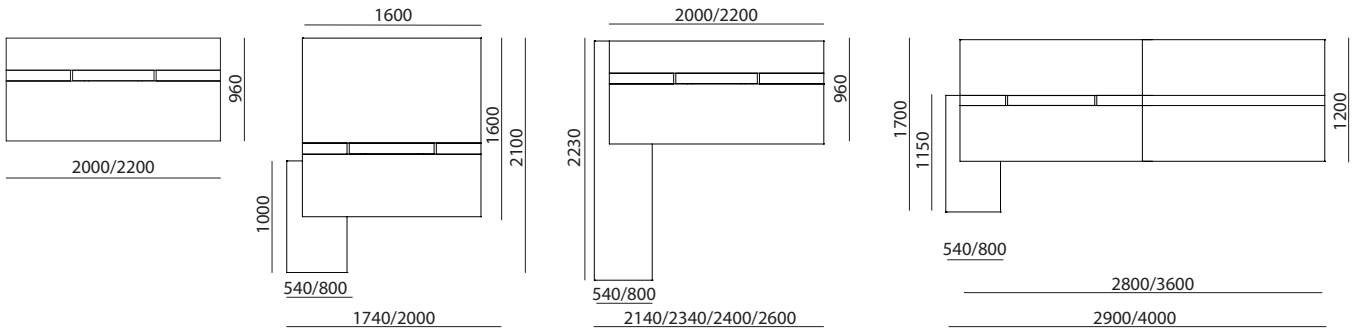

Modular bookcases in 2 different heights with swing doors. Outside done in 20 mm (3/4") thick MDF board veneered in natural wood with acrylic matte UV protection varnish available in several finishes. Inside in graphite. Floor leveling glides. Locks and handles available.

Book shelving with graphite back and 3 shelves of 40mm (1 1/2") thick MDF veneered in natural wood with acrylic matte UV protection varnish available in several finishes.

Bat Office

Francesc Rifé

In Basque, “bat” is the beginning, the first number. Design, style and functionality are... one. They’re Bat. But Bat also reflects the concept of “unity”. Because at Akaba we unite to work, to design, create and dream.

Taking that idea as our basis, we develop this desk which unites balanced design with style and impressive functionality. Everything has a reason to be and flows in the same direction. Each of us have our space, but united we create a space for everyone.

Bat Office

Francesc Rifé

TABLETOPS

Tabletops made of 30mm thick melamine with ABS edges with integrated electrical / data boxes with top access. Steel frame under structure in powder coated finish.

OPEN END LEG/SOLID LEG

Open end 2mm (3/32") thick steel leg measuring 70x20mm (2 3/4"x 3/4") powder coated with leveling glides. Melamine solid leg T-shape made of 30mm (1 1/4") thick melamine with ABS edges with leveling glides. Optional shelves.

BUCKS/DRAWER

Bucks with casters in melamine, 20mm (3/4") thick. Front of drawers in melamine with steel drawer runners and stop control system. Exchangeable looks with optional master key. Options: 1 drawer, 3 drawers, 1 drawer + file drawer.

SUPPORT CABINETS FOR EXECUTIVE WORKSTATIONS

Frame, tops, doors and shelves made of 20mm (3/4") melamine with leveling glides. Front of drawers in melamine with handles and steel drawer runners. Exchangeable locks with optional master key.

SUPPORT CABINETS FOR SPINE COMPOSITIONS

Frame, tops, doors and shelves made of 20mm (3/4") melamine with leveling glides. Storage cabinet options: open, open with Gromet, 3 drawers, with doors, low configuration with upholstered padded cushion.

ELECTRIFICATION SYSTEM

Composed of metal top access with front opening.

Workstation: made of a cable duct for raising cables and a metal tray to allocated the electrification kit

Spine compositions: made of cable riser duct through cabinet and metallic tray to allocated the electrification kit.

Executive workstation: cable rise through support cabinet by cable duct and metal tray for allocated the of electrification kit.

Bench composition: cable riser through a solid metal column and large capacity trays for allocated the electrification kits and cables.

Meeting tables: cable rise through a solid metal column and metal trays to allocated the electrification kit and cables.

ACCESSORIES

Multiple possibilities for accessories: melamine or upholstered screen dividers (optional LEED lighting), great variety of metal trays, file metal trays, mobile storage, CPU containers, flexible cable risers.

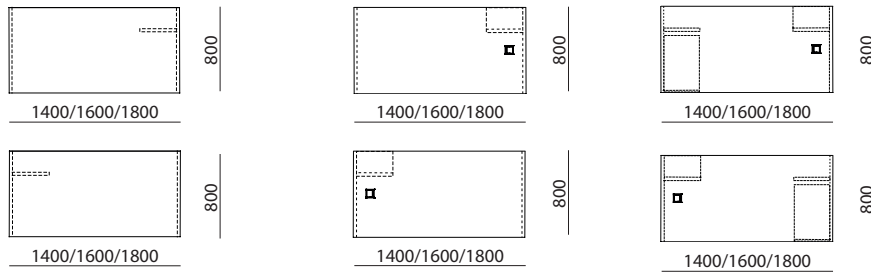

DIVIDERS

Melamine of 19mm or upholstered for bench.

Adaptable to all kinds of spaces, thanks to its wide range of shapes and dimensions, Carma is a modular desk system that creates meeting areas in both conference rooms and coffee corners.

The tops, in customizable material and thickness, are supported by steel columns and a four-star aluminium base. The base has the resistance and lightness of injected aluminium, making these desks tremendously hardwearing and easy to transport. Available in different heights, and in a wide range of compositions.

Carma

Pensi Design Studio

Table program made out of bases in polished, powder coated injected aluminium with 2 options of plastic glides, big or small, or metallic glides powder coated or chromed. Column made out of Ø60mm steel in three height with 4 arms cross in injected aluminium, powder coated or chromed.

TABLETOPS

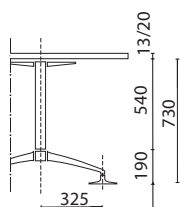

Tabletops in compact - HPL 12mm, melamine 19mm or wood 19mm.

WOOD TABLETOPS

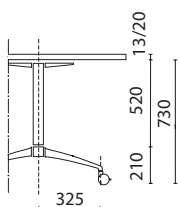

AKABA S.A. will not be responsible for the total uniformity and similarity in the tables that have more than one tabletop. The nature of this finish, its diversity of veins, tones and shades from one sheet to another, mean that exact uniformity cannot be guaranteed.

Carma Folding

Pensi Design Studio

Carma Folding is a table designed to meet the needs of contract projects, meetings, conference and training rooms. With a folding top thanks to an easily operated mechanism, Carma Folding enables the space required to work to appear and disappear fast and simply. The fact that it can be stacked also means that it takes up very little room.

Its hardwearing and lightweight aluminium base stands on braked castors and connects to the top by means of a tubular steel column. The top (in customizable material and thickness) gives the whole the appearance of being solid, and that's something it definitely is!

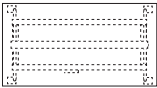

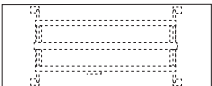

Carma Folding

Pensi Design Studio

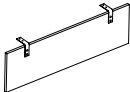

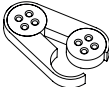

Folding table composed of frame made of injected aluminium powder coated or polished with price increase and with branking castors.

Column made of Ø60mm steel tube and tabletops in 13mm thickness compact - HPL or 20mm thickness melamine or wood.

Tknika

Francesc Rifé

Tknika designed by Francesc Rifé, is a new collection of multipurpose tables for the office and home.

A scalable program with multiple applications to meet all the needs of large groups, and that at the same time adapts to create the home office.

TABLETOPS

19mm thick tabletop in melamine with ABS edges, MDF board veneered in natural wood, 20mm black fenix or 12mm compact - HPL.

WOOD TABLETOPS

AKABA S.A. will not be responsible for the total uniformity and similarity in the tables that have more than one tabletop. The nature of this finish, its diversity of veins, tones and shades from one sheet to another, mean that exact uniformity cannot be guaranteed.

STRUCTURES

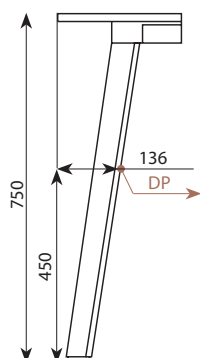

Option of legs in painted aluminum, natural beech wood, natural oak, black stained oak or natural oil finished in smoke color.

JOINTS

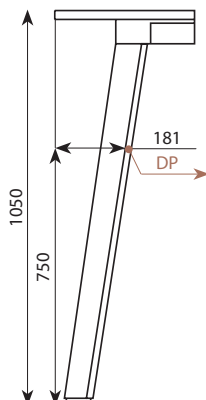

Painted aluminum injection joints for direct 90° and 180° legs.

DISTANCE BETWEEN LEGS (DP)

The distance between legs for the H750mm tables is measured from the height of 450mm.

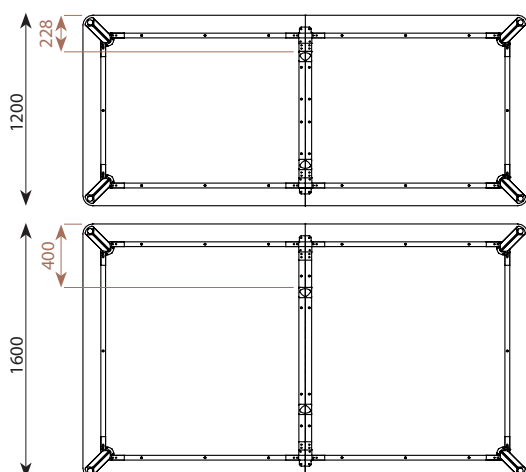

The distance between legs for the H1050mm tables is measured from the height of 750mm.

COLLABORATIVE VERSION (TABLE OVERHANG FOR INTERMEDIATE SUPPORT LEGS)

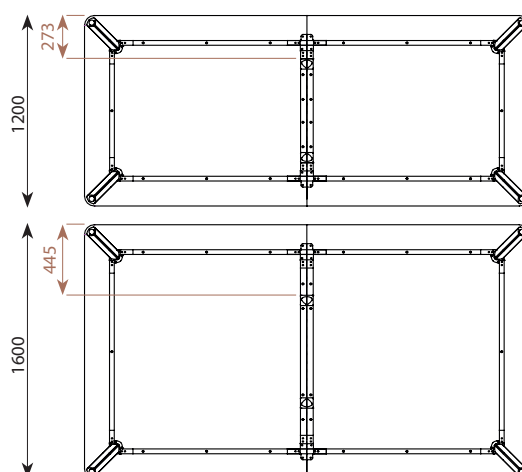

TKNIKA COLLABORATIVE H750

Width = / < 1200 distance between the Collaborative legs and the worktop is 228mm.
Width > 1200 distance between the Collaborative legs and the worktop is 400mm.

TKNIKA COLLABORATIVE H1050

Width = / < 1200 distance between the Collaborative legs and the worktop is 273mm.
Width > 1200 distance between the Collaborative legs and the worktop is 445mm.

Usoa

Tabuenca & Leache Arquitectos

Fusion of a light yet robust table design. Usoa is a meeting table program that meets and exceeds all expectations. It offers the best features of a table: robust worktops of natural materials, solid structure of metal with a clean light design that creates great personality.

One of the main features of the Usoa program is its ability to cover large lengths, creating robust tables up to 5.4 meters long and 1.6 meters wide with only two columns. The multiple combinations of surface, colour, shape and size allow you to create the perfect meeting table for any application.

TABLETOPS

19mm thick tabletops in melamine with ABS edges or MDF board veneered in natural wood with acrylic matt UV protection varnish available in several finishes.

WOOD TABLETOPS

AKABA S.A. will not be responsible for the total uniformity and similarity in the tables that have more than one tabletop. The nature of this finish, its diversity of veins, tones and shades from one sheet to another, mean that exact uniformity cannot be guaranteed.

LEGS

Legs with height adjustable glides in folded powder coated steel of 8 mm thickness.

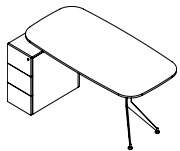

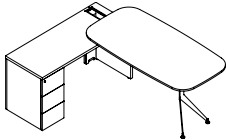

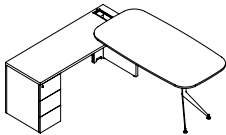

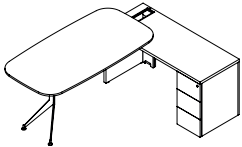

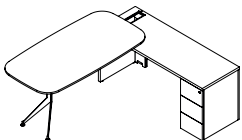

CABLE MANAGEMENT SYSTEM

Compass leg 75°: Flexible cable riser in black or white colour and U shaped melamine central beam to allocate cables and electrical outlets. Top access on top in metal powder coated black or white.

Balance leg 90°: Cable riser with open cover placed on the "balance" leg. The central steel structure allows cabling along the beam. Top access on top in metal powder coated black or white.

Xut

Ander Lizaso

The Xut modular table system stands out for its versatility, offering dimensions, shapes and finishes that can be customized to adapt and fit any room.

The structure of Xut is composed by modular columns made up of vertical metal ribs, which give it a solid and contemporary aesthetic, a design that represents a nod to the metal-clad facade architecture of the 20th century.

TABLETOPS

19 mm thick tabletop in melamine with ABS edges, MDF board veneered in natural wood or 20 mm black fenix.

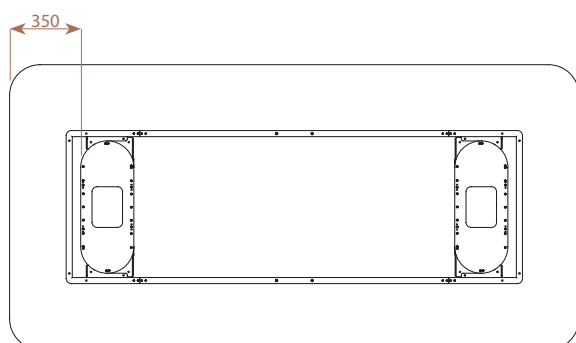

Wooden tabletops: AKABA S.A. will not be responsible for the total uniformity and similarity in the tables that have more than one tabletop. The nature of this finish, its diversity of veins, tones and shades from one sheet to another, mean that exact uniformity cannot be guaranteed.

LEGS

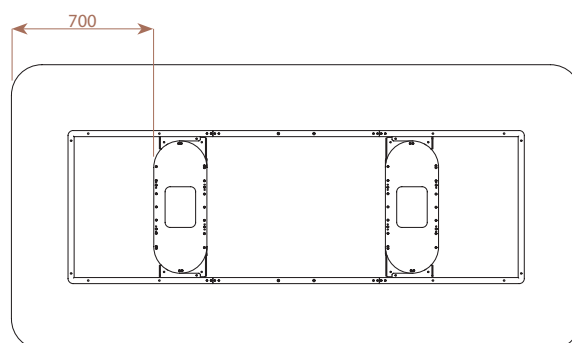

Interlocking powder coated aluminum slats that create different shapes.

OVERHANG

Short overhang

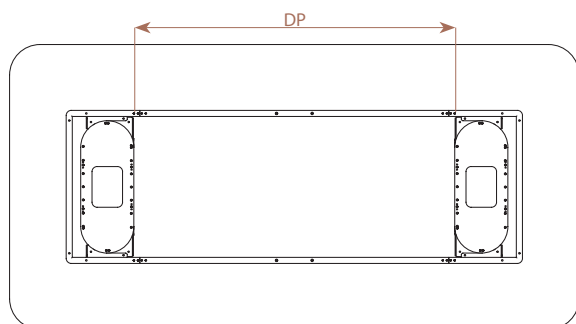

Long overhang

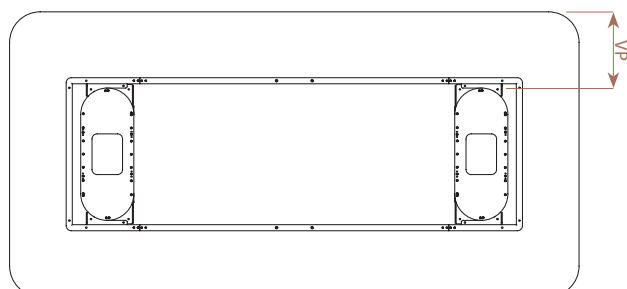

DISTANCE BETWEEN LEGS (DP)

The distance between legs varies depending on the length of the table and the number of tabletops.

DISTANCE BETWEEN TABLETOP AND LEGS (VP)

The distance between the tabletop and the legs varies depending on the width of the table.

Zubi

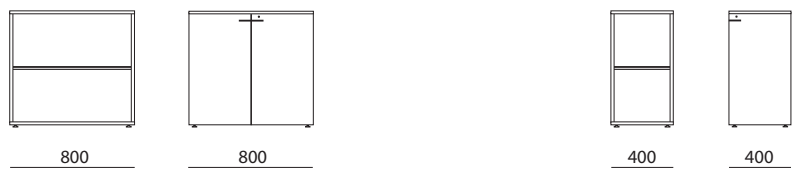

Range of cabinets with an extraordinarily flexible composition. Simple lines, numerous combinations and excellent adaptation to all needs. The detachable connections make it easy to change the distribution of the architectural spaces and the modules with their fully finished backs simplify the task by doubling as dividers when required.

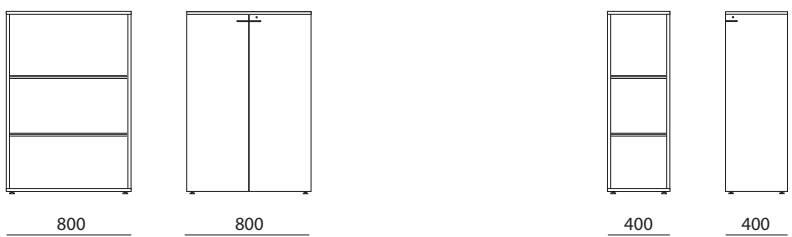

Inside, the cabinets are fully designed for flexibility: the units come with levelling feet accessible from the interior, fixed or mobile shelves, doors which can be regulated and adjusted, with hinges opening to 110°... Zubi thinks of all details, creating filing solutions for hanging folders, with a pull-out frame. If we add to all of this the quality and durability of their materials, each of the components in these cabinets becomes a guarantee of success.
