Lagranja Design

Lagranja Design is a renowned Spanish design studio with a distinctive identity and an outstanding track record in the creative field. Founded in 2002 by Gabriele Schiavo and Gerard Sanmartí, this team is characterized by its multidisciplinary approach, representing a fusion of different disciplines, including interior design, product and graphic design, landscaping, architecture, and art direction. Their work is defined by an ability to combine creative concepts with a contemporary aesthetic and meticulous attention to detail, always ensuring the values and essence of each brand are conveyed through design. Partners and clients include Marset, Camper, Poltrona Frau, and Santa & Cole, among others. Some of its products have been awarded prestigious international design prizes, like the Red Dot award.

Terms of sale:

- The present price list is effective as of February 17, 2025.
- This is a public price list tax free, packing included.
- The indicated prices are susceptible to be modified based on the costs of raw materials, in case the company is forced it. Please consult the price list on our website before making a budget, to ensure that references and prices are correct.

Ordering procedure:

- All orders must be done by a written form, either email (export@st-systemtronic.com) or fax (+34 961854482), indicating:
 - A - product name and reference
 - B - model
 - C - finish / colour
 - D - number of items
- Orders modifications or cancellations will not be accepted 48 hours after the order confirmation.
- Samples orders will be charged as regular ones.

Minimum order:

- Depending agreed on sales conditions.

Special orders:

- For special orders or modifications in any of our products (finishes, dimensions, etc.), consult SYSTEMTRONIC for a previous quotation and delivery time.
- All special orders will be payed in advance by a bank tranfer (€), when confirming it. No additional discounts will be applied.

Payment conditions: swift bank transfer:

- SYSTEMTRONIC doesn't accept sharing bank expenses; we expect to receive the total amount of invoices in the bank transfer.
- First orders will be paid by a swift bank transfer (€) in advance of the total of the amount of the invoice.
- Payment form for following orders will be negotiated between SYSTEMTRONIC and its clients.
- Products remain of SYSTEMTRONIC's property until the invoice is fully paid.

Production period:

- Between 4 and 6 weeks after order confirmation.

Delivery conditions:

- INCOTERMS 2010: EX-WORKS (EXW).

Transport:

- Damages needs to be reported (including the pictures) by fax or email within the following 24 hours once the order is received.
- Deliveries to private addresses will carry a 100 % increasement in the transport cost.

Packing:

- In those orders that need to be shipped in special wood crates, the cost of the special packing will be charged in the invoice. Must be confirmed with the order.

Warning:

- SYSTEMTRONIC reserves the right to make any technical, dimensional or esthetic modification in the manufactured products without prior warning.
- Any type of claim related to the manufactured products must be notified within the term of the following 8 days to the delivery of the merchandise, and under no concept we will accept claims past this time.

Guarantee:

- SYSTEMTRONIC guarantees the quality of its products throughout the manufacturing process and the products components, expecting a responsible use of each item based on its specific characteristics.
- Defects caused by a bad use, hits, cleaning products or extreme weather conditions are not covered.
- The guarantee is valid for 36 months from the date of SYSTEMTRONIC's invoice.

CROMA PLANTER BENCH

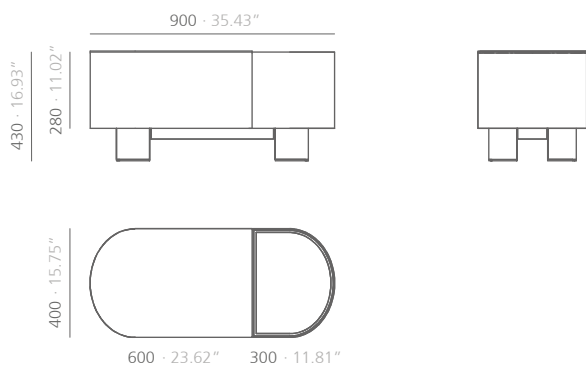

Croma planter bench

This elegant piece of furniture made of aluminum and available in two sizes serves both as a comfortable seating solution and as a practical planter that provides a natural focal point for decoration.

You cannot plant directly in the product. An inner pot and a water-catching tray are required, which are not included in the design.

CROMA PLANTER

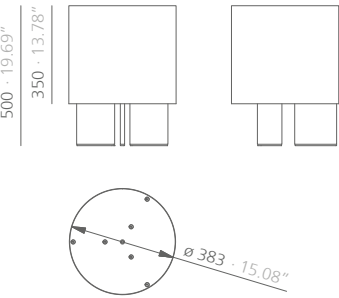

Croma planter

Available in three different sizes, with capacities to suit any need. Its round shape adds a contemporary touch, while its legs maintain the formal coherence of the collection and facilitate the product's mobility. In addition to its aesthetic appeal, these planters offer a practical solution for plant cultivation, creating a green and relaxing environment. They are ideal for a wide variety of spaces, from cozy living rooms to large hotel lobbies.

You cannot plant directly in the product. An inner pot and a water-catching tray are required, which are not included in the design.

CROMA SHELVING

Croma shelving

With two models featuring two shelves each, distinguished by their size, and a third model with three shelves, these shelvings provide a practical and stylized solution for organizing your spaces with a distinctive touch. The shelves and uprights are made of aluminum, ensuring durability and strength without compromising on lightness and versatility. On the other hand, the arches are made of natural ash. The curved ends of the shelves are not only aesthetic but also functional, preventing sharp corners and adding an ergonomic touch. The contrast of materials not only highlights their quality but also adds character to each piece. Whether in the living room, office, or any other space, these shelvings are ideal for displaying books, decorative items, or everyday essentials.

CROMA TROLLEY

Croma trolley

It boasts two shelves joined by a solid ash arch and an aluminum frame which can be requested in chrome plating or painted in any of the colors from the collection. Its large wheels, also in ash, make it easier to move around while also enhancing its playful geometry.

PAPER BIN CROMA

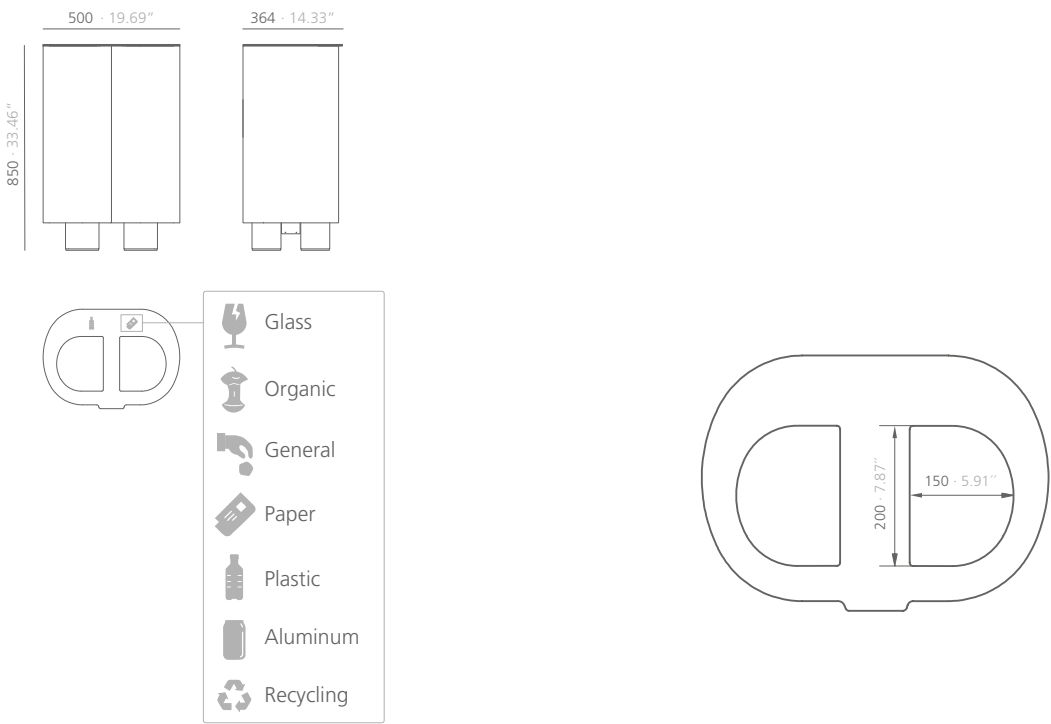

Croma paper bin

These bins are not just containers; they are a statement of commitment to recycling and sustainability. With clearly differentiated compartments, they make it easy to separate waste, thereby contributing to the global initiative of protecting the environment. Their clean and modern design not only integrates harmoniously into any setting but also challenges the traditional perception of bins as unattractive elements. Being elevated from the ground by discreet legs, it is easier to keep the space around them clean.

Made of aluminum and available in two different sizes, with a capacity of 110 and 170 liters.

SUSTAINABILITY

The Croma collection is committed to sustainability and protecting the environment, hence the use of responsible materials that minimize our impact on the planet.

The aluminum used in the collection is 100% recyclable and contains at least 25% recycled material. By using aluminum in our collection, we guarantee that the products are durable and have a long use life, thereby reducing the need to replace them in the short term.

On the other hand, ash is a responsible choice thanks to its renewable origin and its capacity to capture and store carbon. Ash is a fast-growing type of wood which is grown sustainably. By using ash in our collection, we promote the conservation of forests.

The incorporated fabrics are composed of 20% recycled fiber.

The paints used do not contain solvents, they do not consume water and do not generate emissions or waste. The result is a lower environmental impact.
