Design & Manufacturing

At the beginning.

That instant, that exact moment when pencil meets paper. It accelerates, curves, traces a line, twists—and voilà!

This is how every Made Design product begins: from form, shaped with a heart for function.

Al principio.

Ese instante, ese preciso momento en que el lápiz toca el papel. Acelera, gira, traza una línea, se repliega, y ¡voilà!

Así nace cada producto en Made Design: desde la forma, con el corazón puesto en la función.

Au commencement.

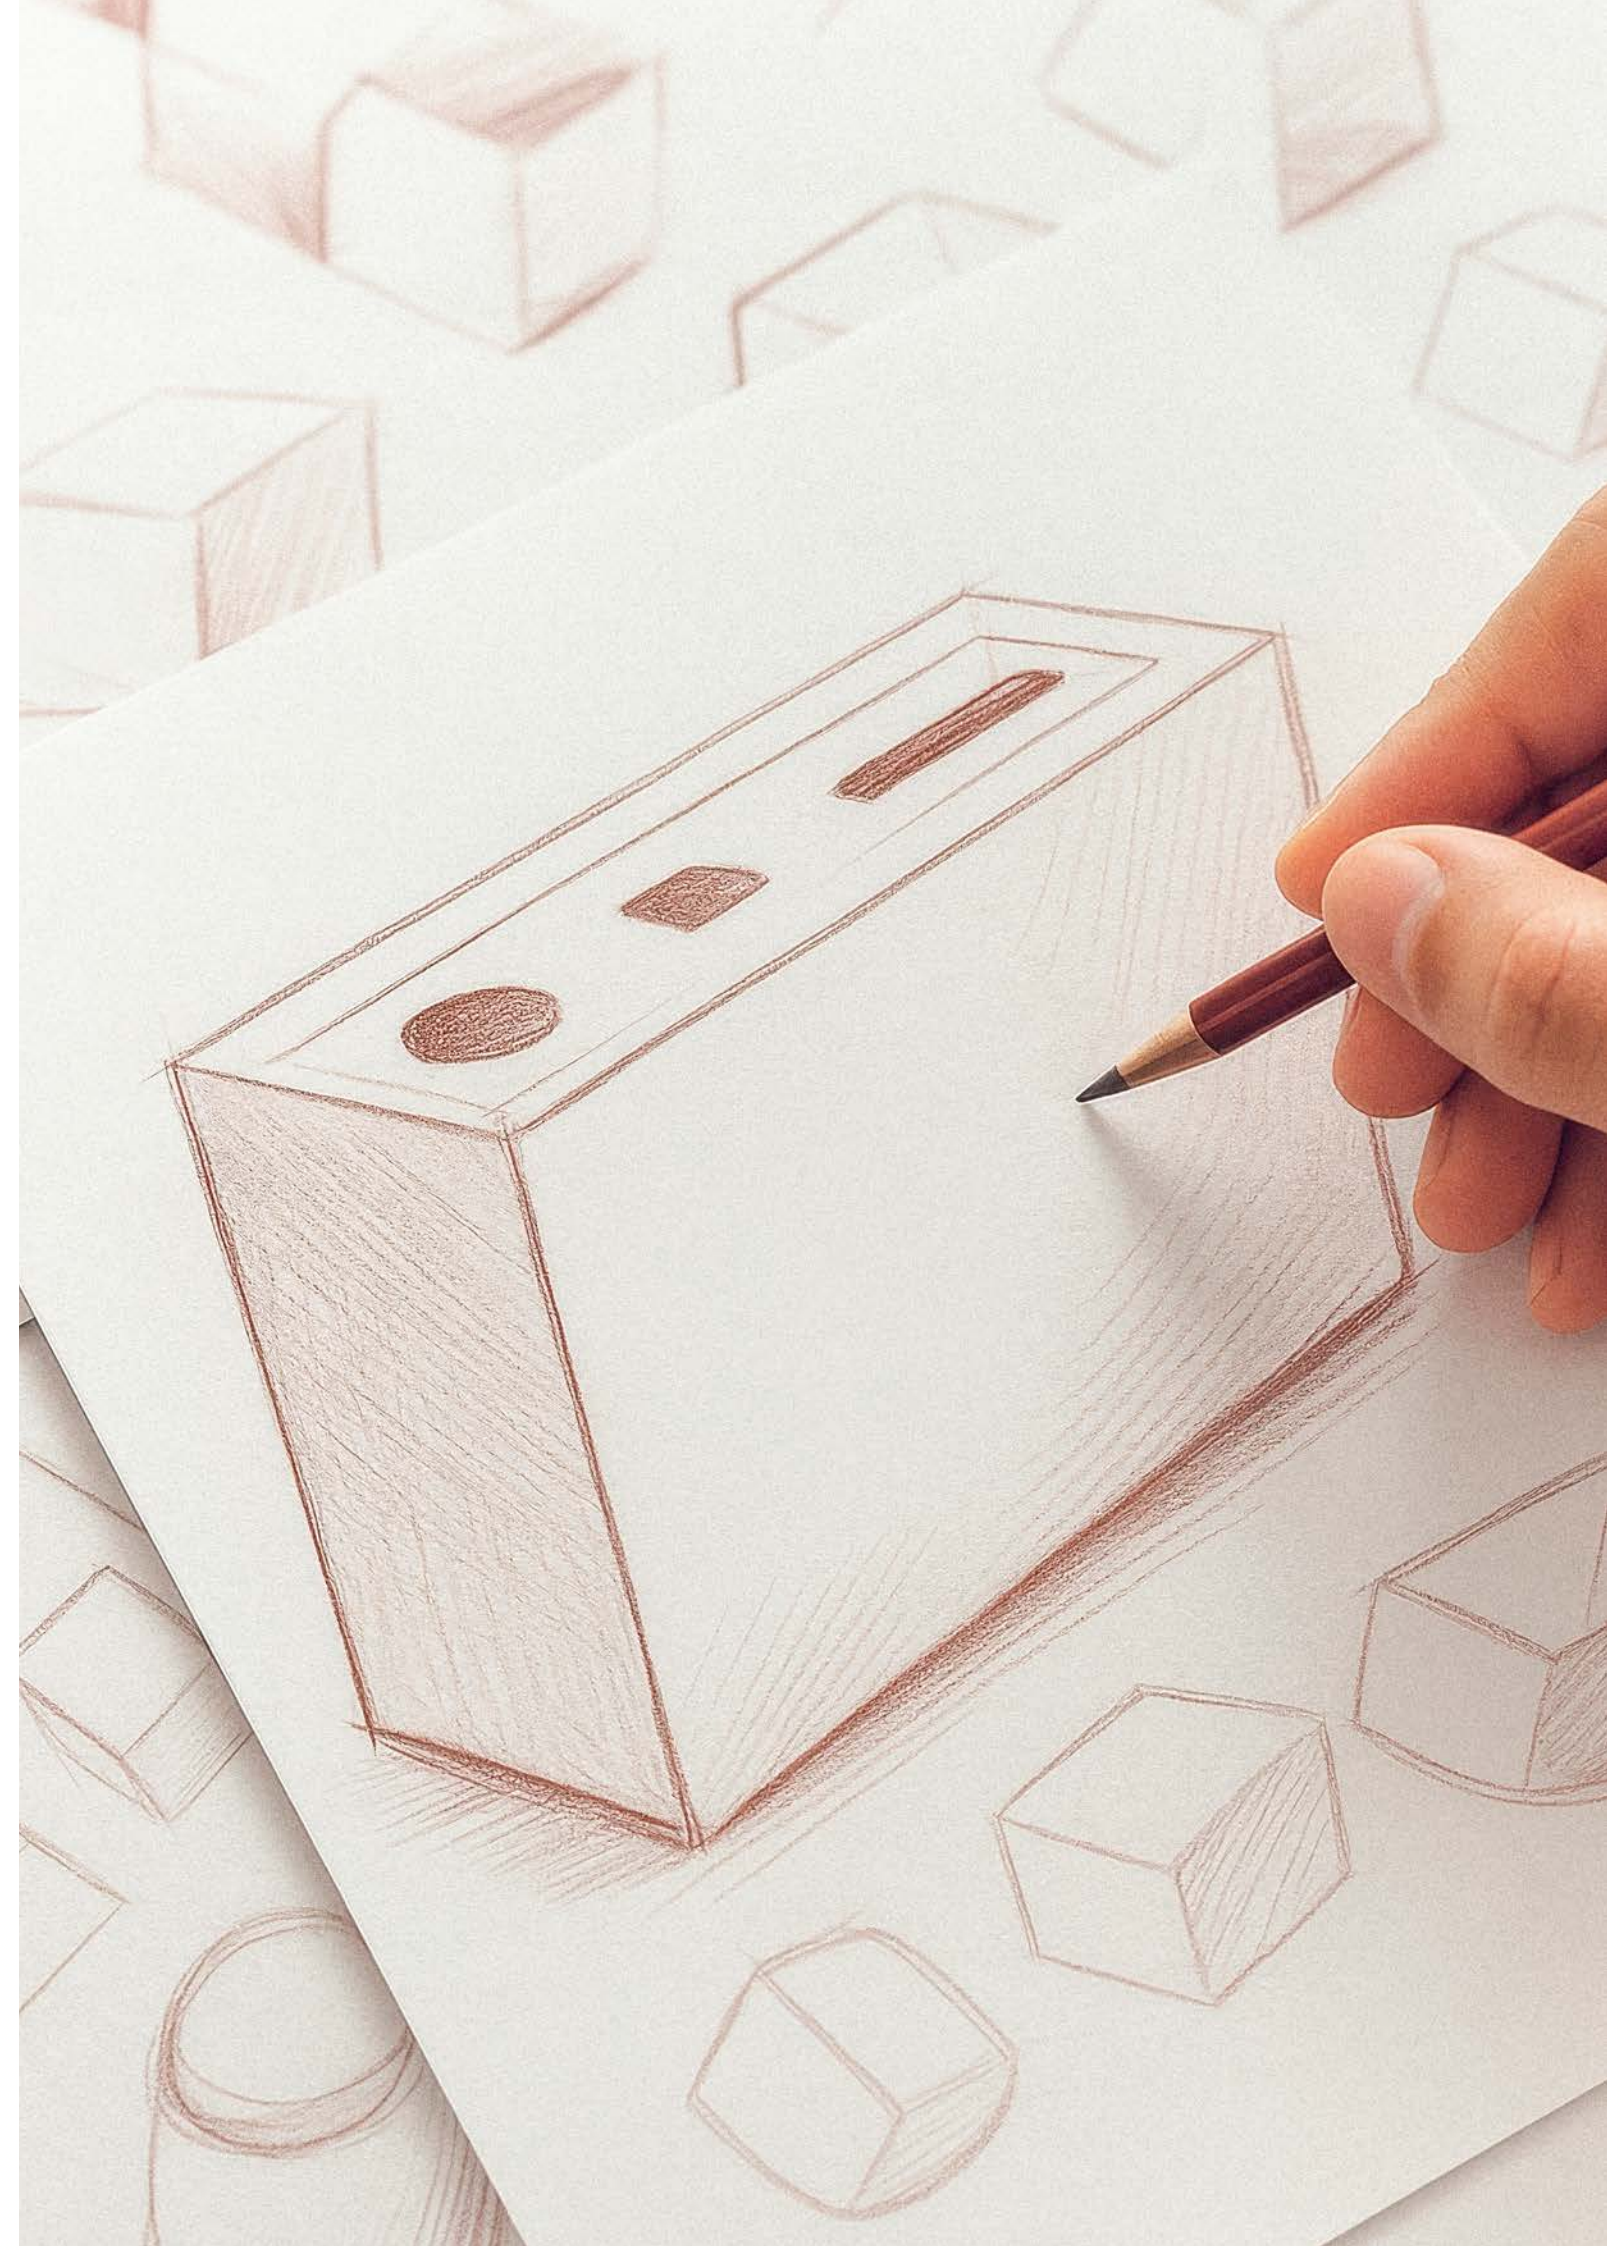

Ce moment, cet instant précis où le crayon touche le papier. Il file, tourne, trace une ligne, virevolte—et voilà !

C'est ainsi que naît chaque produit Made Design: une forme, ensée avec le cœur pour sa fonction.

All'inizio.

Quel momento, quell'istante esatto in cui la matita tocca la carta. Corre, gira, traccia, cambia direzione—et voilà!

Così nascono i prodotti Made Design: dalla forma, con il cuore rivolto alla funzione.

We are green

We generate more waste every day. Recycling is no longer optional—it's a necessity.
At Made Design, we believe every object should serve a purpose beyond function.
That's why we design sustainable products meant to last, be reused, or recycled.
Useful, yes—but also full of character and design.
Because caring for the planet and the spaces we live in is part of how we create.

Cada día generamos más residuos. Reciclar ya no es una opción: es una necesidad.
En Made Design creemos que cada objeto debe tener un propósito más allá de lo funcional.
Por eso diseñamos productos sostenibles, pensados para durar, reutilizarse o reciclarse.
Piezas útiles, sí—pero también con carácter y diseño.
Porque cuidar el planeta y el espacio que habitamos es parte de nuestra manera de crear.

Nous générons de plus en plus de déchets. Recycler n'est plus une option : c'est une nécessité.
Chez Made Design, nous pensons que chaque objet doit avoir un sens au-delà de sa fonction.
C'est pourquoi nous concevons des produits durables, pensés pour durer, être réutilisés ou recyclés.
Utiles, oui—mais aussi pleins de caractère et de design.
Parce que prendre soin de la planète et de notre environnement fait partie de notre manière de créer.

Ogni giorno generiamo più rifiuti. Riciclare non è più un'opzione: è una necessità.
In Made Design crediamo che ogni oggetto debba avere uno scopo oltre la funzione.
Per questo progettiamo prodotti sostenibili, pensati per durare, essere riutilizzati o riciclati.
Utili, sì—ma anche con carattere e design.
Perché prendersi cura del pianeta e dello spazio che viviamo è parte del nostro modo di creare.
